

Color, Cut, & Play

Color the flip-flops and the beach. Be sure that the sandals with the same design are the same color so they match. Cut out the cards.

Two ways to play! See game instructions on the opposite side.

Color, Cut, & Play

Two ways to play!

**Flip-flop, flip-flop
Sitting on the blacktop
Searching for a match
In this sandal batch.**

Split the cards between right foot and left foot (so there is 1 of each design in each pile). Take the right foot pile, and mix them and lay them sandal side down in a grid.

Pass out the left foot pile to each player until there are no cards left. Sign the rhyme and display the one card from your pile you wish to try to match. Then turn over a card from the grid. If it matches- great! If it doesn't match, (even if it matches another card in your hand) turn the card over and it is the next player's turn. The first player to match their cards wins the game.

**Napping on a sand hill
Someone took my sandal!
Who is that vandal?
Is it you?**

Mix up the cards. Without peeking at the design, hide 1 card under the beach. Then pass out the reminding cards to the players. Players take turns singing the rhyme and asking another player if they have a match to a particular sandal. At any time, if a player feels they have the card that matches the card under the beach, they can look. However, if their card doesn't match, they are out of the game and the cards distributed to the remaining players.

Players get a point for every matching pair they have and 2 points for having the beach match.
